

HOUSE NUMBER

The house number is the first and unavoidable element of visual communication on a business object.

Suitably placed, of large size and readable house number is the best welcome to any new visitor to the object.

In practice, if it exists at all, it is a rare case to find it correctly written and correctly placed on the object. That is the reason why our company devoted this introductory text to the house number and to the special attention in production.

The number is made of GRAVOGLAS material in blue with reversibly engraved numerals white in color. The numbers are from the font HELVETICA.

The number made in this way resists the time a long series of years.

dimension: The size of the number is 200 x 150 mm.

color: Blue background, white letters.

material: GRAVOGLAS 3.2mm in thickness, product of NEW HERMES (USA).

production technique: Engraving with programmed CNC machine and painting of the engraved text.

installation: By ornamented screws.

*The manufacturing of house numbers with individually perforated numerals of various sizes and materials is also possible.

technical description: HOUSE NUMBER

P 1:2
