

WORKING HOURS

The inscription plate with office hours is placed most often on the fixed part of the entrance door.

The text, more exactly, the concrete office hours are to be engraved on request.

The inscription may be made in Cyrillic or Latin alphabet as well as all other standard inscriptions.

Because of external installation we suggest the choice of materials in which the engraved text is not white for better maintenance.

dimension: Standard dimension is 200 x 150 mm.

color: By the choice of architect - designer from the shade - chart of the producer with more than 20 shades.

material: two - layered GRAVOPLY material - the product of NEW HERMES.

production technique: The engraving of the text with CNC machine.

installation: The sign is attached to the background with both sides glued tape 3M 468MP which provides a solid connection to the background.

*On special request the inscription of the office hours may be put on the inner side of the glass, or the inscription of double office hours with an added text: open - closed.
