

CUT OUT NUMBERS FOR FLOORS

The floor designation by the special self - sticking numbers of GRAVOPLY material is most often used in modern business buildings in which the interior is made in marble.

The cut out numbers for floor designation are placed in front of the central elevator and in the central staircase.

Besides yielding the necessary information about the floor, the numerals and the numbers with their pleasantness contribute to the improvement of the visual impression of the building.

The numerals are Arabic, perforated from the font HELVETICA BOLD.

dimension: The height of numerals is 150 mm.

color: By the choice of architect - investor from the producer's shade chart with more than 20 shades.

material: GRAVOPLY material, an American producer NEW HERMES product.

production technique: Cutting by the programmed CNC machine.

installation: The numeral is attached by double self - sticking tape 3M 468MP which provides a solid connection to the background.

*The manufacturing - cutting off the numerals of other dimensions and of other materials is available. We are also producing the cut through backgrounds of clirit if a numeral is to be put on the paravent, the facade brick or the like.
