

HOTEL KEY PENDANT

The key pendant to hotel rooms is an exceptionally important and key element in the business of a hotel.

For difference from pendants in a business building, the hotel key pendant must meet further more complex requirements.

The main requirements a hotel key pendant must meet are:

- The pendant to be sufficiently great that on the way between the room and the reception desk could not involuntarily be put into the pocket and passed by the reception desk.
- To be light in weight, of blunt edges and designed so that nobody, especially the children, could get hurt in a hurrying by falling down or even on purpose.
- Its color to be apparent so that it could be easily found in the disorder of the room.
- The room number on it to be made so, that it by no means could be damaged or destroyed, accidentally or on purpose.
- The key ring must be specially made and designed for this purpose, so that the key could not be removed by hand.
- The pendant must not cause the damage to the furniture, to the reception desk and to the tables in everyday use.
- The pendant, if possible, ought to be the standard product of a bigger producer, so that spare or new ones could be provided even a longer series of years later, and be entirely identical to the present ones.

Considering so complex requirements, the greatest producer in this field, the American company NEW HERMES with an experience of 50 years in their production program they have kept back only one kind of hotel key pendant. The pendant type symbolically called 2000 meets all above mentioned conditions, and is winning by its likeableness.

dimension: The pendant is 100 mm long, 30-40 mm wide and 2-10 mm thick.

color: Anodized aluminum of golden color.

material: Electrolytic aluminum, steel chromium coated ring, a special gold gum that does not wipe down.

production technique: Engraving with the CNC machine.

All hotel keepers do know that the first thing the guest comes into contact with and the last he or she gets separated from is the hotel pendant.

*On special request the logotype of the hotel may be engraved on the other side of the pendant.
